

Legal V1 — UAT Handbook

Version 1.0 · 2026-07-03

Executive Summary

Legal V1 is technically frozen. This handbook governs the Business UAT phase and provides all artifacts required for sign-off by Business, Compliance, QA, and the Steering Committee.

Scope

Coverage: Compliance→Legal Referral, Benefits→Legal Referral, Intake, Matter Workspace, Recoverable Liabilities, Court Operations, Judicial Orders, Consent Orders, Appeals, Enforcement, Recovery Assignments, External Counsel, Court Filings, Legal Costs, Dashboards & Reports, Administration, and Security.

Objectives

1. Prove every Legal V1 business capability against seeded/real data.
2. Confirm financial reconciliation against `v_lg_case_financials`.
3. Validate permissions against the seven Legal role types.
4. Produce evidence sufficient for production sign-off.

Architecture Overview

Frontend: React 18 / Vite. Backend: Lovable Cloud. Financial single-source-of-truth: `v_lg_case_financials` rolled up from `lg_recoverable_liability`. Security: application-layer capability matrix via `useLgAccess` + `LegalRouteGuard` (no RLS per project rule).

Roles

`LG_READ_ONLY`, `LG_LEGAL_ASSISTANT`, `LG_CASE_HANDLER`, `LG_REVIEWER`, `LG_APPROVER`, `LG_ADMIN`, `SYSTEMADMIN`.

Seed Data

Compliance cases `CC-2024-0002 / 0007`; Referrals `CMP-LR-SKN-2026-000002/000003/000004`; Intakes `LG-INT-SKN-2026-000017/000018/000019`; Legal cases `LG-SKN-2026-000017/000018/000019` and `SEED-LG-2026-0001/0002/0003`.

Entry Criteria

• Environment stable • Seeds present • Roles provisioned • CE→LG real flow validated • Typecheck clean.

Exit Criteria

• ≥100 UAT cases executed • Zero Blockers open • Financial reconciliation passes • Permission matrix verified • Sign-off recorded.

Severity Definitions

Blocker – halts a critical flow. Major – wrong data or broken step with workaround. Minor – cosmetic or non-blocking. Cosmetic – label/style only.

Evidence Collection

Screenshots per test case archived under docs/legal/UAT/evidence/. Reference the Defect ID or Test ID in the file name.

Signoff Process

Business Owner, Legal Lead, Compliance Lead, QA Lead, Product/Delivery, IT/Security sign the Sign-Off pack. Decision options: Accepted / Conditional / Rejected.

Appendices

A: Test Cases Excel · B: Execution Tracker · C: Defect Register · D: RTM · E: Test Data · F: Financial Reconciliation · G: Permission Matrix · H: Business Process · I: Screen Catalogue · J: Operations Manual · K: Quick Reference Guides · L: Sign-Off Pack.
